Hints for the Thrifty Housewife—When Making Starch for Dark Cottons—Egyptian Evening Gown—Four Splendid Ways to Use Raisins—Adjustable Muffin Recipe.

TALKS ON DOMESTIC TOPICS

Indigestion, nervousness and tight lacing are some of the causes for red nose. To alleviate this condition bathe your nose with cold water to which a little alcohol has been added, or use epsom salts solution.

Eggs often freeze in winter. If the frozen eggs are put into water as hot as the hand can bear it and the pan with the hot water and eggs put on the back of the stove where it will keep warm for one hour, the eggs will be as good as new.

If stiff cuff shirts are brought together exactly as they will be when the links are in and fastened with a spring clothes pin immediately after they are ironed, they will harden into just the right curve without wrinkles.

Mildew stains can be removed by soaking for several hours in a weak solution of chloride of lime and then rinsing in cold water.

Use a wire dishcloth with a handle for stirring thickening. This will make it smoother than is possible with a spoon. After using, the stirrer should be dropped at once into cold water. If it stands for any length of time the paste will harden and it will be difficult to wash.

A stove that is rubbed with a rag that has been soaked in paraffin instead of with ordinary blacking becomes bright and glossy. This shine will not rub.

In order to prevent common starch from "whitening" your dark cottons add liquid glue to the second rinsing water in the proportion of one tablespoonful of glue to one gallon of water (warm). The gloss and finish left by the iron will resemble that of the material upon the merchants' shelves.

THEY LIKE IT.

"Are goats fond of music?" "I should say so. I had one that ate up \$50 worth of phonograph records."—Exchange.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't stay Gray! Here's an Old-time Recipe that Anybody can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Advertisement.

SOME WITTY TOASTS.

At a certain banquet a crusty old bachelor gave the toast, "Woman—she requires no eulogy; she speaks for herself!"

Upon another occasion, a gallant youth referred to one member of the sex whom he eulogized as "a delectable dear, so sweet that honey would blush in her presence."

At the marriage breakfast of a deaf and dumb couple one guest, in the speech of the evening, wished them "unspeakable bliss."

A writer of comedies was giving a banquet in honor of his latest work, at which a jovial guest gave the toast, "The author's very good health! May he live to be as old as his jokes!"

At another gathering were toasted "The Bench and the Bar—if it were not for the Bar there would be little use for the Bench!"

At a shoemakers' dinner one of the company suggested, "May we have all the women in the country to shoe and all the men to boot!"—Pearson's Magazine.

EGYPTIAN EVENING GOWN.
A gown seen at a dance last week was of misty blue chiffon worked with silver and scarabs of gray and soft green turquoise stones, a tulle drapery was caught at the wrists with dull silver bracelets set with the blue, and the girdle was of orange colored chiffon embroidered with silver and turquoise.

RAISIN RECIPES

Light Raisin Cake—One cup butter, two cups sugar, three eggs, one cup milk, four cups flour, one cup seedless raisins, four teaspoons baking powder. This will make two loaves.

Raisin Loaf Cake—A piece of raised dough, one-half cup butter, one cup sugar, three eggs well beaten, one cup walnuts chopped, one pound seedless raisins, one tablespoon cinnamon. Mix well and let raise until light, bake in mold.

Raisin Bread Pudding—Make custard of one quart milk, add bread in small pieces, one cup raisins, three eggs, four tablespoons sugar. Flavor with vanilla and nutmeg, then bake.

Raisin Chocolate—Put one-half cake vanilla sweet chocolate in a saucepan over boiling water; when melted add two level teaspoons butter and two of boiling water. Dip raisins and put on oiled paper.

ADJUSTABLE MUFFIN RECIPE

Since the price of eggs, butter and sugar have gone soaring, why not use this muffin recipe, which is quite inexpensive:

Cream—one-fourth cup butter and one-fourth cup lard together; add one cup sugar, yolk of one egg well beaten, two cups flour mixed with two teaspoons baking powder and one-fourth teaspoon salt, one cup milk, beaten white of the egg and one cup raisins. This recipe makes eighteen muffins.

Nuts may be used instead of raisins, or raisins may be omitted and chocolate added.

A favorite frosting recipe, which requires no cooking, is as follows:

Mix in a bowl one and one-half cups powdered sugar, three teaspoons cocoa, three tablespoons melted butter, three tablespoons hot coffee, a little vanilla; stir until smooth.

This muffin recipe can also be used for a loaf cake, and it is delicious any way it is made.

UNITA NITROGEN OF GREAT VALUE

The exact status of oil and naval reserve No. 2, located in the Uinta basin, was made known last night through the courtesy of C. H. Cook of Myton, who sets forth conditions in explaining the withdrawal of 2,511,517 acres in the Uinta basin. Mr. Cook, who is an exceptionally well-informed worker in the Uinta basin, says:

Because of their value for petroleum and nitrogen known to be contained in vast deposits of oil shale, 2,511,517 acres of lands in the Uinta basin have been reserved to the government, according to an official communication which has been received from the department of the interior. The reservation is by far the greatest ever made in the history of the state.

It was preceded by the reservation by the federal government of a tract of more than 80,000 acres of oil shale land on the Green river, immediately north of Green River City. This is known as naval reserve No. 2, and it is the general understanding that oil which may be extracted from this reserve will be used for naval fuel purposes.

Is Valuable Deposit.
Extensive investigation of lands in the Uinta basin is reported to have been made by mineral and oil engineers of the United States geological survey. It is believed to be the most valuable petroleum and nitrogen deposit in the United States.

In a majority of instances the shale was found to lie under the surface in layers of great thickness.

The reservation of the land does not mean that it is to be withdrawn from entry entirely. Qualified entrymen may make application for the land under any of the land laws to which they may be subject. But the land so to be taken up will be examined for the oil shale and nitrogen which it may contain.

The nitrogen deposits are said to be so extensive that the Uinta basin may become a national supply station for years to come.

May Result in Expansion.
Public land laws, enacted July 17, 1914, provided for the reservation of oil and other mineral lands. It is said that a number of investigations are in progress under the direction of the national geological survey mineral engineers in other parts of the state, and establishment of other reservations may be looked for. Instead of retarding the progress of the development of lands within the Uinta basin, it is said that the reservation of the oil shale property may result in a new boom in the Uinta basin district.

Industrial experts who have been investigating the conditions feel confident that development of the oil shale fields will result in the bringing into the basin of a branch line of the Denver & Rio Grande from Soldier Summit.

SQUAD RETURNS TODAY.
PROVO, March 21.—President Geo. A. Brimhall of the Brigham Young university announces that the B. Y. U. basketball squad will be here tomorrow, and that a committee has been appointed to receive the quint.

WORRIED HIM.
"I'm a little worried about Mabel." "What's the trouble? Wouldn't her father consent to your marriage?" "That's just it. He consented and seemed so glad about it."—Detroit Free Press.

Again for \$1—While They Last

This Guaranteed Aluminum Cooker

The cost of Aluminum has doubled since we ordered these lifetime Cookers. At present prices, this offer would be impossible. So, in all probability, after our supply is exhausted, it cannot be made again.

Next week the grocers of this city will once more feature this Quaker Cooker offer. And for the last time, we believe.

We have supplied Cookers now to over 1,000,000 homes. We have supplied these guaranteed Aluminum Cookers for \$1 to Quaker Oats users. But this offer ends with our present supply, and probably forever. Unless Aluminum drops 50 per cent, we cannot again offer a Cooker like this for \$1.

But next week only we make the offer below. You can get this Cooker for \$1, by buying two of our cereals which should be cooked in it.

This offer is made to induce better cooking. To bring you Quaker Oats and Pettijohn's cooked in perfect form, with the flavor kept intact. Our reward will come in your doubled delight in these foods.

We ask the trademarks just to show that you use our cereals. Unless you have the right flakes, right cooking does not help much. But, if you use Quaker Oats and Pettijohn's, this cooker is yours for \$1. This is for one week only. Get the packages from any grocer named below

Pure Aluminum
Extra Large and Heavy
Cereal Capacity 2 1/4 Qts.
A Lifetime Utensil

One Week Only—Your Last Chance

Our Offer Is This: Send us two trademarks cut from packages of Quaker Oats and one trademark cut from a package of Pettijohn's—the picture of the Quaker on the front of the Quaker Oats package and the picture of the Bear on the front of the Pettijohn's package—or, if you prefer, you may send us five trademarks from Quaker Oats alone. Send us \$1 with these trademarks and we will mail the cooker by parcel post. Trademarks must be mailed next week. This offer applies in this vicinity only. Address The Quaker Oats Company, 1708 Railway Exchange, Chicago

Quaker Oats

The Extra-Delicious Vim-Food
Flaked from Queen Oats Only

All the world over Quaker Oats holds first place among oat foods. Oat lovers of a hundred nations send to us to get it. A billion dishes are consumed each year. Nowhere in the world do connoisseurs find any oat food to compare with it.

The reason is this: Quaker Oats is made from queen grains only—just the big, plump, luscious oats. No puny starved grains are included. A bushel of the choicest oats yields only ten pounds of Quaker.

The result is a flavor which has won the world—a flavor which is matchless. Yet these large and luscious flakes cost you no extra price.

Nature stores in oats a wealth of vitality which everybody needs. We want you to know this fascinating vim-food, made as we make it and cooked in our way.

Pettijohn's

Rolled Wheat with 25% Bran Flakes
A Modern Bran Dainty

Every doctor advises bran, as essential to right living. It is Nature's laxative. Everybody every day should eat it. It means better health, better spirits, sunnier days. Without it, our diet of fine food forces folks to drugs.

Pettijohn's is made to meet doctors' requirements. The bran is hidden in flaky flakes of wheat. The food is a morning dainty which everybody likes. Yet it contains 25 per cent tender bran.

The bran is in flake form, which makes it doubly efficient. Ground bran will not do.

Try Pettijohn's one week. Note its delightful effects. Never again will you go back to a branless diet.

Then try Pettijohn's Flour. It is 75 per cent fine patent flour mixed with 25 per cent bran flakes. Use it like Graham flour in any recipe.

HOSPITAL IS OPENED BY AMERICAN WOMEN

LONDON, March 21, 5 p. m.—The new American Women's hospital for officers in the West End of London, overlooking Hyde Park, was opened today. The opening, which was informal, was attended by 300 American women. Among those attending were Ambassador Page, Mrs. Page, Mrs. John Astor, Lady Randolph Churchill, the Duchess of Marlborough, Viscountess Harcourt, Lady Lowther and Mrs. Whitelaw Reid.

The hospital, which will care for fifty patients, was equipped by American women in London. The largest ward is named the Philadelphia ward, on account of the fact that women who formerly resided in Philadelphia subscribed the money for it. Another is named the Mary Burns ward, after a sister of J. W. Morgan.

MILLER REPLACES EDWARDS.
GRAND RAPIDS, Mich., March 21.—Henry Miller of Detroit, with 1945, displaced Henry Edwards of Buffalo from the leadership in the all-events of the American Bowling congress here today. Miller's leadership results from 693 in the fives, 649 in the doubles and 603 in the singles. Leaders in other events were not affected by today's scores.

RUNAWAY GAME

NEW ORLEANS, March 21.—The Cleveland baseball club defeated the New Orleans team of the Southern league here today 17 to 5.

PANAMA CANAL NOT IN DANGER

WASHINGTON, March 21.—Army officers feel no uneasiness as to the security of the Panama canal in the present crisis, despite many published reports that the big waterway is exposed to raiding parties intent upon crippling it. It was authoritatively stated today that the canal is regarded as the most secure of the nation's outlying possessions.

German propaganda in Central and South America has led to reports that raiding parties might attempt to dynamite the locks or other working sections of the canal. It was asserted that every inch of the locks and power plants is under constant patrol and no opportunity for such demonstration exists.

All white employees in the zone are American citizens. The governor has power to deport any suspicious person without formality of trial and there has been no hesitation in exercising that power.

Bombs dropped from airplanes could have little effect upon the massive concrete and steel structures of the canal, even if the airplanes escaped the guns of the garrison.

DESPOUNDENT WOMAN ATTEMPTS OWN LIFE

SALT LAKE, March 22.—Apparently despondent because of ill health and a fear of losing her mind, Mrs. Marie McKinney, 25 years of age, wife of W. A. McKinney, a mining man of Cokeville, Wyo., shot herself through the left breast late yesterday afternoon, missing the heart by a narrow margin, but inflicting a wound in the left lung which may prove fatal. The shooting took place in the family apartment at 419 West South Temple street.

Mrs. McKinney had been ill in bed all day, according to the story her husband told the police at the emergency hospital, where the woman now lies in a precarious condition. He had telephoned for her in the morning to her place of employment, he said, to say she would not go to work during the day. She got out of bed and obtained the gun, McKinney told the police.

McKinney said his wife was despondent because he had decided to leave on a train at 5 o'clock for Cokeville, Wyo., where he has some leases on mining property. McKinney told the police that his wife purchased the pistol several weeks ago because of his frequent absences from home.

VETERAN DIES.

BREWER, Me., March 21.—George W. White, formerly commander-in-chief of the Ohio veterans' union, died at his home here today. He was 71 years old.

AMERICAN NEWS HOLDS ATTENTION

LONDON, March 22, 2:55 a. m.—President Wilson's proclamation convening congress in special session, and long dispatches from Washington and New York dealing with the outlook and describing the warlike preparations of the United States, fill conspicuous places in the columns of the morning newspapers today. The Daily Telegraph, however, alone comments on the situation.

"The first week of April," says this newspaper, "will see the recognition by the United States that a state of war with Germany exists. It is a spectacle that may well engage the attention of Europe, for it is the turning point in the world's history, as well as of the history of the United States. Those in Germany who made up their minds that nothing was to be feared from American intervention are likely to be rudely undeceived in a short time."

Referring to Germany's scheme to embroil the United States in war with Mexico and Japan, the Daily Telegraph thinks it likely that this will bring the people of the United States into the war with hardly less unanimity than was shown by allied Europe. "Germany, indeed, should bitterly curse the day when that puerile piece

of treachery was hatched in some typical Prussian brain," says the Daily Telegraph.

COACHES IN FAVOR OF GROUP MEETS

SALT LAKE, March 22.—The coaches of the Granite, Jordan and L. D. S. high schools are unanimous in their praise of the group athletics which has been carried on by the three high schools this winter, and say that in their estimation the system will prove to be a bigger success in the future than in the past.

The three mentors will meet Friday afternoon to further the plans of the group activities.

Coming, "The Escape."

Watch for announcement.

AGED EDITOR DIES.

EDGEWATER PARK, N. J., March 21.—Colonel Paul R. Shipman, who was editor of the Louisville Courier-Journal during the Civil war, died here today. He was 92 years of age.
